

Surgical Assist Clinical Privileges

Name: _____

Effective from ____/____/____ to ____/____/____

- Initial privileges (initial appointment)
 Renewal of privileges (reappointment)

All new applicants must meet the following requirements as approved by the governing body, effective: March 9, 2017

Instructions:

Applicant: Check the “Requested” box for each privilege requested. Applicants are responsible for producing required documentation to allow for a proper evaluation of current skill, current clinical activity, and other qualifications and for resolving any doubts related to qualifications for requested privileges. Please provide this supporting information by uploading the appropriate documents

Medical/Clinical leaders: Check the appropriate box for recommendation on the last page of this form and include your recommendation for any required evaluation. If recommended with conditions or not recommended, provide the condition or explanation on the last page of this form.

Current experience: Current experience thresholds suggested in this document were developed by practitioners in the field, and are *not* intended as a barrier to practice or to service delivery. They are *not* intended as rigid cutoffs, below which clinical privileges must be restricted or removed. Instead, medical/clinical leaders are encouraged to initiate discussions with those practitioners who are close to or below the thresholds, to ensure that mechanisms are in place to ensure adequate practitioner experience and patient outcomes.

Other requirements

Note that privileges granted may only be exercised at the site(s) and/or setting(s) that have sufficient space, equipment, staffing, and other resources required to support the privilege.

This document is focused on defining qualifications related to training and current experience to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

Context: The care of complex patients and patients with uncommon diseases requires access to multidisciplinary groups, experienced teams and institutions with the necessary subspecialties and infrastructure for appropriate care.

Surgical Assist Clinical Privileges

Grandparenting: Practitioners holding privileges prior to implementation of the dictionary will continue to hold those privileges as long as they meet current experience and quality requirements

Continuous Professional Development (CPD): Where suggested in this document, CPD requirements reflect those professional development activities which are eligible for:

1. credit under the Royal College of Physicians and Surgeons of Canada's Maintenance of Certification (MOC) program;
2. the College of Family Physicians of Canada Mainpro+;
3. those professional development activities held in foreign jurisdictions which would be eligible under the MOC/Mainpro program if held in Canada; or
4. equivalent CPD or Quality Assurance activities for other practitioners.

Planned vs. Unplanned (Emergency) Care: The scope of privileges granted to any individual practitioner is based on considerations of patient care under "normal circumstances." In the setting of risk to life or limb, the rules of privilege are not meant to constrain practitioners from acting in the best interest of a patient.

Note: The dictionary will be reviewed over time to ensure it is reflective of current practices, procedures and technologies.

Core privilege: Types of activities a recent graduate of the discipline can reasonably be expected to perform at a specific facility. Under core privileges in this dictionary, if there is a procedure you wish to NOT perform please type into the *Comments* field.

Non-core privilege: Types of activities that require further training, experience and demonstrated skill. Non-core privileges are requested in addition to requesting core. Individuals requesting these privileges should meet the specific threshold criteria associated to such non-core privileges.

Restricted procedures: Some dictionaries have procedures identified by the Ministry of Health as [DESIGNATED A RESTRICTED SERVICE BY THE MEDICAL SERVICES COMMISSION]. Privileges identified as restricted procedures may be flagged in this document. Where it appears, the restricted procedures flag is for administrative tracking only and has no impact on clinical content.

Surgical Assist Clinical Privileges

Definition

A Surgical Assistant is a health care practitioner that assists with surgery under the direct supervision of the surgeon.

NB: this dictionary and privilege should be used alone ONLY for those situations where there is to be NO OTHER clinical care provided; no pre or post-surgical care. In the instance where other care is provided the appropriate dictionary should be used alone (where surgical assist is a usual core or non-core privilege) or in addition to this dictionary (to supplement where the surgical assist is not a usual core or non-core privilege).

Qualifications for Surgical Assist

Initial privileges: To be eligible to apply for privileges in surgical assist, the applicant should meet the following criteria:

License from College Physicians and Surgeons of BC

OR

License from the College of Midwives of BC and certification as assistant at a C-section

OR

Licensed as a nurse practitioner from the College of Registered Nurses of BC and demonstrate competency to surgical assist

AND

Recommended current experience: As determined by a surgical department or facility.

Renewal of privileges: To be eligible to renew privileges in Surgical Assist-, the applicant should meet the following criteria:

Current demonstrated skill and an adequate volume of full- or part-time experience with acceptable results, reflective of the scope of the privileges requested, (minimum of 24 weeks working in the discipline for the past 36 months), and support of the surgical department or facility.

Return to practice: Individualized evaluation with supervision of core procedures relevant to their intended scope of practice.

Non-core privileges: Surgical Assist

Requested

Surgical Assist Clinical Privileges

Acknowledgement of Practitioner

I have requested only those privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and for which I wish to exercise at the facility I am applying, and I understand that:

- a. In exercising any clinical privileges granted, I am constrained by hospital and medical staff policies and rules applicable generally and any applicable to the particular situation.
- b. Any restriction on the clinical privileges granted to me is waived in an emergency situation, and in such situation my actions are governed by the applicable section of the medical staff bylaws or related documents.

Signed: _____ Date: _____

Medical / Clinical Leader's Recommendation
